To consider the use of officer time to work with statutory agencies, third sector and faith groups to explore ways we can work together to best mitigate the impact on the health and wellbeing of people in Hebden Royd, and the initial expenditure relating to organising meetings, co-ordinating a response, and any related costs. Also, to consider tasking the Strategy and Review Committee to advise the Council the best way it might support any planned response of partners.

A discussion took place about the importance of this matter and the need for a swift response. It was highlighted that staff time was limited. Councillors are aware of this and though some officer support may be required, they are eager to assist in progressing projects and building partnerships where appropriate, some Councillors are already very active in this response.
